

TA Series

Tray Adapter

2009 Data Sheet

COBHAM

The most important thing we build is trust

Aircraft owners spend considerable amounts on aircraft completions, only to have mismatched avionics flaw the appeal and look of costly cockpit installations. The new TA Series Tray Adapter kits are a simple solution to alleviate height and mount variations (Dzus mount with tray mount) in avionics products.

The TA Series Tray Adapter will convert common size Dzus mount products into 6.25" tray mount products. Lightweight at .2 to .25

lbs., the TA allows installers to flush mount mixed avionics quickly and easily, saving install time and providing a uniform professional installation.

The adapter has been rigorously tested to DO-160D vibration and shock standards for equipment weighing up to 5 pounds. CNC milled from solid aluminum stock, the unit is anodized in black and finished with or without silver trim.

Features:

- Lightweight
- Black or Silver trim available
- High quality CNC milled aluminum
- No adjustments required
- No need to stock Dzus & tray mounts
- Save install & labour time
- Clean flush look
- Fits different mounting sizes

Various sizes are available; reference the following part numbers for easy ordering:

TA03-00x (1.16" - 3 hole)
TA04-00x (1.55" - 4 hole)
TA05-00x (1.92" - 5 hole)
TA07-00x (2.67" - 7 hole)
TA08-00x (3.05" - 8 hole)
-000 = Silver Trim
-001 = Black Trim

Consult factory for other available sizes.

Top:
TA05-000 Tray Adapter:
1.92" 5 hole, Silver Face

NPX138N mounted in TA0x-001 Tray Adapter:
1.92" 5 hole, Silver Face

Bottom:
NPX138N, N335 mounted in
TA0x-001 Tray Adapters:
1.92" 5 hole, Black Face
2.67" 7 hole, Black Face
