Responsible Office:

Pacific

Aircraft/Engine Type or Model:

ISRAEL 1125 WESTWIND ASTRA

Canadian Type Certificate or Equivalent:

A-202

Description of Type Design Change:

Northern Airborne Technology STX100 SATPHONE
Installation

**Installation/Operating Data,
Required Equipment and Limitations:**

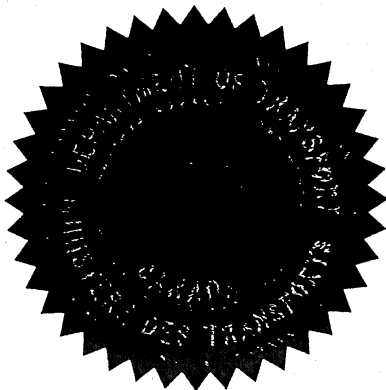

Installation must be in accordance with Transport Canada approved Northern Airborne Technology Ltd. Master Document List STC\0004\719-2 Rev. 1.00, dated April 29, 2004, or later Transport Canada approved revision.

Limitations

- (1) Per Transport Canada approved Kelowna Flightcraft Ltd. Maintenance Manual Supplement K167-102-001-012 Rev. A, DOT approved September 10, 2004.
- (2) The SATPHONE equipment must be placarded, in clear view of the pilot, as follows:

(a) **SATPHONE NOT TO BE USED FOR ATC PURPOSES**

(b) **DO NOT USE ON GROUND DURING REFUELLING**

Conditions: This approval is only applicable to the type/model of aeronautical product specified therein. Prior to incorporating this modification, the installer shall establish that the interrelationship between this change and any other modification(s) incorporated will not adversely affect the airworthiness of the modified product.
